PROJECT DESCRIPTION

In a European context characterised by a high rate of youth unemployment, the PPM Project aims at developing a specific network made of all the actors involved in the craft papier mâché production and in VET education. The scope of the PPM Project is to bring two different target groups together, namely the one of "expert artisans" and that of "potential artisans", in order to encourage smart peer to peer learning approaches by exploiting the full potential opportunities of the sector.

PARTICIPANTS

Potential artisans

Youngsters' high school graduated with a technical profile (aged 19+)

Expert artisans

Established entrepreneurs (aged 25+) In the field of papiermâché manufacturing

Co-funded by
the European Union

for Sustainable Development and Transforming the World

Training and Research in Creative Economy stand out as the main strategic lines. From Training it organizes university postgraduate courses (Masters and Specialization) but also training open to society in the multiple fields of Creative Industries such as crafts.

From Creative Spain we also promote the <<Network of Creative Cities and Territories of Spain>> established in 2016 with the objective of promoting creativity and innovation in our cities and territories. We work from "local" to promote the Transformation of the World.

The city of Montilla is a city of Córdoba that is part of our Network of Creative Cities and Territories of Spain, currently holding its presidency. It stands out, in addition to its famous wines, for its rich crafts, as there is an Association of Artisans of Montilla that will collaborate and actively participate in this ERASMUS+ Training that we will celebrate from April 23 to 27 in this Cordovan city.

CLAY MODELING / PAPER MACHE PLASTER MODELING / PAINTING AND FINISHES ON PAPER MACHE

Workshop by Marcelo Scapinachis from Mondoñedo in collaboration with Antonio Asara from Tempio Pausania

The course that we are going to give in Montilla will include three main blocks: Modeling, Matriceria and Production.

Each one of these blocks includes an infinite number of options, but due to lack of time, we will mainly do clay modeling, plaster matrices and production in Paper Mache with airbrushed color finishes.

But we will touch different options and possibilities to the clay modeling, to the plaster matrix and to the airbrush finishing, we will focus mainly on the creation of Paper Mache objects, with different creative proposals, one for each student, works that will be part of the final exhibition.

MONDAY 24TH

- Introduction to modeling, practice with clay, modeling methods, usual and exceptional tools.
- Creative proposal. One different proposal per participant.
- Basic die-stamping, making a plaster mold of each object created to reproduce it.

TUESDAY 25TH

- Usage of molds to duplicate objects in paper mache.
- Alternatives to clay and plaster. Ancient and modern methods.

WEDNESDAY 26TH

- Coloring and finishing of the objects made in paper mache.
- Preparation of the objects to be exhibited.

THURSDAY 27TH

- Presentation of projects.
- Exhibition design and set-up.

OPENED EXHIBITION

INAUGURATION – 27th at 18:00h
